

“ Pre-Show Season Problem Solving ”

with

Karin Bielefeld

Willow Tree Equestrian Center

www.i2k.com/~willow

Sunday, May 23rd, 2010

The clinic will be a great opportunity for any horse and rider combination to work on areas of concern before their show season starts. The rider may ride a test at the Level of their choice or just work on areas of concern. If the rider rides a test, Karin will cover the movements of the test as well as their purpose. She will also discuss what the judge is looking for. In addition there will be breed specific muscle conditioning covered, as well as potential problems while training the horse. The problems that each participant wants to work on will be addressed from both the equitational position of the rider and physical condition of the horse. All questions are important, as well as working on improving the rider's confidence.

The lessons will last 45 minutes with 15-minute question and answer period for auditors.

Lesson
